“Here’s the Scoop”

Skid Steer Mounted Scoop & Spreader

Model 2011SCP Scoop shown
with optional #1005 Fan Shroud Kit

The 2011SCP Salt/Sand Scoop

Our unique agitator system is the Tool for Efficient Deicing. Utilizing our unique agitator design, the Herd Salt/Sand Spreaders are the most effective method of spreading any combination of sand (Wet or Dry) Salt or Calcium Chloride.

- Hydraulic Motor Drive, with Cable controls for (1) Opening & Closing Gate and (2) Hydraulic Valve for Variable Spread Width
- Universal Skid Steer Attaching Design for Easy Compatibility and Security
- Capacity of 1200# wet sand, or 12 Cubic Feet of Material
- Heavy Duty Hopper of 10 Gauge Steel with Powder Coated Finish—All Welded Construction
 - Durable Cutting Edge—3/8” x 4”
 - Rugged Top Bar Grate

Our Simple to Use Design allows More Productivity with Less Manpower. Simply Tilt the Hopper forward, Push into your Sand Pile until Full, Tilt Back, and Spread Sand!
