

VERSATILE. STURDY. EASY TO USE.

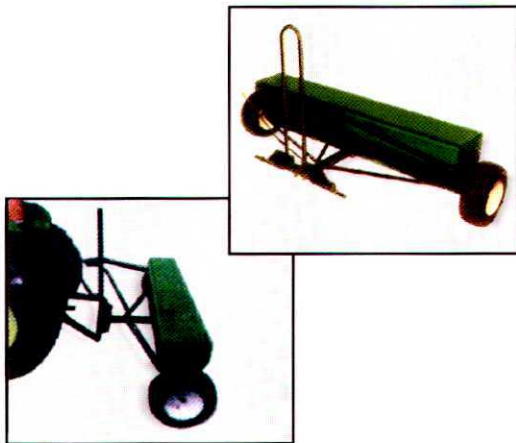

**TIGHT CORNERS? SHORT SPACES?
NO PROBLEM!**

**THE NEW GARBER SEEDER®
3-POINT SPREADER GETS
INTO THE TIGHTEST SPACES
WITH EASE!**

Use it to spread seed, fertilizer, salt, or pellet lime close to buildings, trees, fences and other obstacles where backing is required.

- Spread seed, fertilizer and salt into square corners. Any place where backing is difficult.
- Allows for short turns without danger of cramping the hitch.
- Eliminates gaps in spread pattern when turning corners.
- Detachable 3-Point hitch mount lets you convert to a pull- type spreader.

**AND THE GARBER SEEDER® IS
PRICED RIGHT TOO!**

Use it dozens of different ways in fertilizing for landscaping , lawn care, recreational parks, and athletic fields! In spring and summer, you won't find a more efficient tool for seeding and fertilizing your lawn. In winter, the Garber Drop Spreader makes short work of salting driveways and parking lots. It pays for itself hundreds of times over each season it's used whether you are a commercial operator, at a city park, on an estate, down on the farm, or at home. This unique drop spreader can be attached to the drawbar of any lawn tractor or the 3-point hitch of any small tractor. Our designers have taken special care to engineer the Garber Drop Spreader so that it is as easy to use as it is accurate. The application guide gives you total control over the seeding and spreading rate. Precisely tooled openings assure uniform, blanket distribution and the quantity control handle can be operated smoothly from the hopper or the tractor seat.

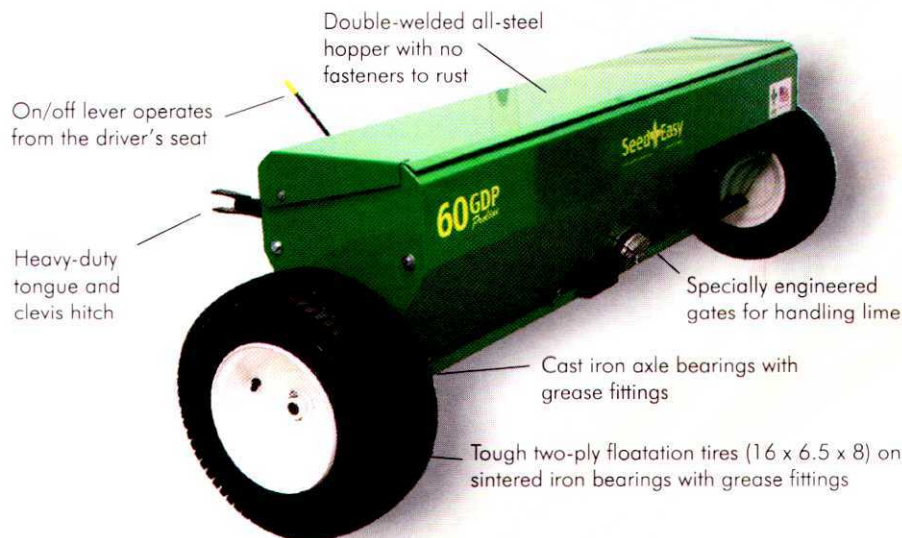

It's easy to clean, too! All you need are two wrenches and a pair of pliers.

Made to last! The Garber Drop Spreader is formed from sturdy 12 & 16 gauge steel, so it will stand up to the most rigorous use. Unlike so many discount spreaders that are often made of plastic and fiberglass, you don't have to endure the troubles associated with bowing, warping, chipping, cracking and splitting.

Made environmentally safe! We take pride in the fact that the exclusive Garber Drop Spreader is manufactured utilizing an environmentally safe process. The powder coat painting process also ensures a tough, scratch resistant finish that will last and last.

Ask your dealer about the special options!

- Stainless steel bottom hopper panel, control panel and agitator.
- 3-point hitch.
- Turf Tracker™ foam marking system.

SINCE 1946... WE'RE STILL THE BEST... STILL MADE IN THE U.S.A.

CHOOSE THE SPREADER THAT MEETS YOUR NEEDS

FOUR STURDY MODELS MEAN YOU HAVE A CHOICE!

36-GD (180 lbs. Capacity)

48-GD (240 lbs. Capacity)

60-GD (300 lbs. Capacity)

72-GD (360 lbs. Capacity)

The Garber Drop Spreader gives you the power to...

- Apply granular products like grass seed, fertilizer and herbicides accurately and uniformly. Eliminates fertilizer streaking.
- Easily spread salt for ice and snow removal.
- Rely on consistent performance from season to season. Simple, rugged, heavy-duty all-welded steel hopper makes it durable!
- Count on easy clean-up. All you need are two wrenches, a pair of pliers and a few short minutes!
- Depend on steady performance. The extra strong 3/4" diameter axle/agitator is designed to last and last!
- Enjoy smooth performance. The rugged cast iron axle bearings with grease fittings practically guarantee it!
- Have easy access. The standard lid is designed for quick removal if necessary!
- Hook-up in a hurry. Our spreader is equipped with a heavy duty tongue and clevis hitch, but a 3-pt. hitch can also be added.
- Experience smooth towing. The standard 16 x 6.50 x 8 flotation tires with heavy duty 14 gauge steel rims help ensure it.
