#### **Self Contained 2215 electric powered Two-Way Log Splitter**

With a quick cycle time of 7-9 seconds, the 2215 Split-Fire log splitter is one of the fastest electric powered log splitters found on the market today!

Powered by a 120 Volt / 15 Amp high torque electric motor, the 2215 offers a cleaner and quieter option for splitting wood. Just plug this electric wood splitter into an existing wall outlet and begin splitting.

Its compact design makes it the perfect wood splitting companion for property owners splitting 50 cords of wood per year or less. All Split-Fire log splitters feature the 2-way splitting action from the knife that splits wood in both directions.

*Quality Built for High performance! Split-Fire log splitters give you trouble free log splitting for years to come!*
