

# MINOS AGRI

# Drum Mower

Includes protective curtain (not shown)

## FEATURES:

Minos 3-Point mounted rotary drum mowers for cutting fields. High speed working drums achieve a high-quality cutting performance making the mowers popular in both large and small farming enterprises. These mowers are available in three widths: 1.35m, 1.65m and 1.85m with optional hydraulic fold. The rotary drum mower mows all kinds of plants, including grass, meadow grass, and wild, road-bordering vegetation. The blades rotate at a high velocity in opposite directions, and the mower has adjustable cutting height. For farm use, the mower preserves the nutrient values of the crop and allows for quick drying time.
