

## AUTOMATIC RESET ZONE-TILL

**Keep  
Residue  
on Top!**

**Promotes Air  
and Water  
Absorption!**

TEBBEN'S New Zone Till Shank fractures compacted ground while leaving residue on top. Tebben Enterprises Automatic Reset Shank Assembly will trip over rocks and other obstacles while maintaining up to a 22" digging depth. Front cutting coulters ahead of each shank helps leave surface residue and soil relatively undisturbed.

- Adjustable Point Pressure Up To 2,400 Pounds
- Automatic Reset Assembly
- Heavy 5" x 7" Tube Frame
- Category II or III 3 Point
- Manual Gauge Wheels Including Tires
- 3 to 8 Shank Models Available on 22", 24" or 30" Spacing
- Replaceable Wear Bar and Shovels
- 36" Underframe Clearance
- Optional Heavy or Light Duty Disc Assembly
