

3-Point Hitch

Self-Contained

WOODY LOG SPLITTERS

The Woody 3-Point Hitch or Self-Contained Log Splitter Series provide the heavy-duty, reliability and durability you're looking for in a wood splitter.

3-POINT HITCH

Install a Woody 3-Point Hitch Log Splitter to the back of any tractor using the hitch rods and you can take the log splitter there where you need it.

SELF-CONTAINED AND TOWABLE

Powerful and versatile Woody Self-Contained Log Splitters offer strength and reliable splitting speed with an efficient cycle time for logs ranging from 24" to 36" long. Powered by a Honda GX 160 (5 hp) or GX 270 (9 hp) engine, these wood splitters are built to handle jobs of all sizes.

WOODY LOG SPLITTERS

3-POINT HITCH AND SELF-CONTAINED SERIES

Models: 40-24, 40-30, 40-36

3-Point Hitch Series

40-24

40-30

Woody 3-Point Hitch Log Splitter Series are powered by the tractor's oil outlets. They can be installed horizontally or vertically by changing the position of the 3-point hitch attachment. Stroke lengths of 24" or 30" are available.

3-Point Hitch 4 MCX Series

This Woody 3-Point Hitch 4 MCX Log Splitter is powered by the tractor's oil outlets. This 40-24 model can split horizontally only and can split wood into 4 and/or 2 pieces and up to 24" long. In an optimal situation, this 3-Point Hitch 40-24 model can split up to 6 cords of wood per hour. Comes with an integrated log lifter on the 40-24-LB model.

40-24

40-24 LB

WOODY LOG SPLITTERS

Woody Equipment manufactures a wide range of wood splitters, either for installation on a 3-point hitch or for towing with a utility vehicle. We offer 24" to 36" stroke lengths, a 2 or 4-way wedge, a choice of Honda GX 160 (5 hp) or GX 270 (9 hp) engines, hydraulic log lifter, fenders with lights and on-road suspension.

equipementswoody.com

Self-Contained Series

40-24

The Woody Self-Contained Log Splitters were designed for your small to large jobs. They can split wood horizontally or vertically. Equipped with a Honda GX 160 (5 hp) or a GX 270 (9 hp) engine, a two-stage pump, an optional hydraulic log lifter, and a choice of 24" or 30" splitting strokes make this our most popular model.

40-30

Self-Contained 4 MCX Series

40-30

The 4 MCX models of the Woody Self-Contained Log Splitter Series were designed for large-scale jobs and split horizontally in 2 or 4 pieces. Equipped with a Honda GX 270 (9 hp) engine, a two-stage pump, a hydraulic log lifter and a choice of splitting strokes of 30" or 36" make this model the most industrial choice.
